Climate-related financial disclosures (TCFD-aligned)

The Group reports against the four TCFD pillars — governance, strategy, risk management, and metrics & targets. Climate risk is integrated into the enterprise risk framework and overseen by the Risk Committee. Scope 1 and 2 emissions fell 9.9% year on year, and the Group has set a target to reach net-zero operational emissions by 2040.

Metric	FY2024	FY2023	Target	Target year
Scope 1 emissions (ktCO2e)	12.4	14.1	—	—
Scope 2 emissions, market-based (ktCO2e)	29.2	32.1	—	—
Scope 1 & 2 total (ktCO2e)	41.6	46.2	0	2040
Renewable electricity (% of total)	61%	52%	100%	2030

Metric	FY2024	FY2023	Target	Target year
Climate capex (\$m)	23.8	18.4	—	—

Related-party transactions

All related-party transactions during the period were conducted on arm's-length terms and approved in accordance with the Group's related-party policy. No single related-party transaction exceeded the smaller-related-party threshold requiring shareholder circular.

Counterparty type	Nature	Value (\$m)	Terms
Associate — Helix Power JV	Component supply	18.6	Arm's length
Key management personnel	Remuneration (total)	9.4	Per policy

The proposed final dividend is covered 3.8 times by earnings and is fully supported by distributable reserves of \$612.4m.

Internal control and disclosure-controls attestation

The Directors confirm that the Group maintained effective internal control over financial reporting during the period. No material control weaknesses were identified by management or the external auditor. The Disclosure Committee reviewed the adequacy of disclosure controls and procedures and concluded they were operating effectively.

- **Material weaknesses identified:** none.
- **Significant deficiencies remediated in year:** 2 (both low impact).
- **External audit opinion:** unqualified.
- **Going concern:** the Directors have a reasonable expectation that the Group has adequate resources to continue for at least 12 months.
