

CONSULTING RECOMMENDATION

Operating Model & Cost Transformation

Recommendations for [Client — Project Lattice]

Engagement	Project Lattice	Client	[Redacted — codenamed]
Service line	Strategy & Operations	Proposal type	Recommendation report
Outcome	WON / Approved	Sections present	9 of 9
Anonymised	Yes	Sensitivity	Medium

ANONYMISATION & USE NOTICE

This document is an **anonymised exemplar** retained for proposal structure, framing and language only. The client is codenamed, and all figures, dates and identifying details have been redacted. It must **not** be used as a source of facts or figures in any generated proposal.

1. Executive summary

Our diagnostic identified a sustainable cost-reduction opportunity of [% of cost base — redacted] and a simpler, more accountable operating model. We recommend a three-horizon transformation that delivers early wins within [months — redacted] while building the capabilities needed for durable performance.

This document summarises our findings and the recommended way forward. It is structured to move from evidence, to options, to a clear recommendation and implementation plan.

2. What we found

- **Cost concentration.** A small number of activities drive [% of spend — redacted]; these are the priority for redesign.
- **Duplicated effort.** Overlapping functions across units create rework and slow decisions.
- **Unclear accountability.** Decision rights are diffuse, lengthening cycle times.
- **Underused technology.** Existing platforms are utilised at only [utilisation % — redacted].

3. Our recommendations

Recommendation	Rationale	Indicative impact
Simplify the operating model	Consolidate duplicated functions; clarify decision rights	[benefit — redacted]
Redesign the top cost drivers	Apply zero-based principles to the largest categories	[benefit — redacted]
Raise technology utilisation	Retire legacy tools; standardise on core platforms	[benefit — redacted]
Build a performance cadence	Embed KPIs, ownership and review rhythm	[benefit — redacted]

4. Recommended approach & phasing

Horizon	Focus	Outcome
H1 · Stabilise (0–[redacted] mo)	Quick wins, governance set-up	Early savings, momentum
H2 · Redesign ([redacted] mo)	Operating-model & process redesign	Structural change
H3 · Embed ([redacted] mo)	Capability & culture	Sustained performance

5. Scope of work

- Detailed design of the target operating model and accountability framework.
- Category-by-category cost redesign with owners and tracked benefits.
- Technology rationalisation roadmap aligned to the operating model.
- Implementation support, benefit tracking and a value-assurance office.

6. Team & governance

Role	Responsibility	Commitment
Engagement Partner	Direction, executive sponsorship	[FTE — redacted]
Principal	Design leadership, client management	[FTE — redacted]
Consultants (x[n])	Analysis, workstream delivery	[FTE — redacted]

7. Indicative timeline

A full programme runs over [total months — redacted], with a stage gate at the end of each horizon to confirm benefits before further investment.

8. Commercial summary

Component	Basis	Amount
Fixed fee by phase	Milestone-based	[fee — redacted]
Benefit-linked element	% of validated savings	[fee % — redacted]
Expenses	At cost	[cap — redacted]

9. Why Halstead Partners

Evidence-led Recommendations grounded in your data, not generic benchmarks alone.	Benefits we stand behind Fees partly linked to validated, tracked savings.
Capability transfer We build your team's capability, not dependence on us.	Pragmatic delivery A phased plan with stage gates to manage risk and pace.

10. Assumptions & next steps

- Benefit estimates are indicative and to be validated in mobilisation.
- Assumes access to cost, headcount and systems data.
- We propose a mobilisation workshop within two weeks of approval.

Anonymised exemplar created for system-testing of an internal proposal-generation platform. The authoring firm, client and all figures are fictional or redacted. Retained to demonstrate proposal structure and language only; not a source of fact.
